

KANISHK PANWAR

602-388-3032 | kpanwar2@asu.edu | [LinkedIn](#) | Phoenix, AZ

Business Data Analytics graduate (ASU, May 2026, GPA 3.8) with hands-on experience in consumer supply chain analytics, KPI reporting, and data pipeline development. Surfaced \$40K+ in avoidable cost and drove a 30% engagement lift by pairing SQL and Python analysis with Power BI reporting. Working knowledge of Azure data tooling including Data Factory, Databricks, and Event Hubs. Lean Six Sigma Yellow Belt.

CORE COMPETENCIES

Analytics & BI: SQL (Joins, Window Functions), Python (Pandas, NumPy), Power BI (DAX, Data Modeling), Tableau, Excel (Pivot Tables, Power Query, VBA)

Data Engineering: Azure Data Factory, Databricks, ADLS Gen2, ETL/ELT Pipelines, Kafka, MQTT, Azure Event Hubs, Postman (REST APIs), AWS S3

Supply Chain: Inventory Analysis, Demand Forecasting, Vendor Performance, KPI Design, Process Mapping, Stakeholder Reporting

Methods: Statistical Analysis, A/B Testing, Cohort Analysis, Trend Analysis, Anomaly Detection, Root Cause Analysis, Lean Six Sigma, DBMS

PROFESSIONAL EXPERIENCE

Operations Efficiency & Business Data Analytics Intern | Martori Farms

May 2025 - Aug 2025

Scottsdale, AZ | Consumer Goods Supply Chain

- **Supply Chain Analytics:** Surfaced 3 sourcing inefficiencies representing \$40K+ in avoidable cost, measured by sign-off from operations and procurement leads, by analyzing inventory and supply data in SQL and Python to drive root cause analysis.
- **KPI Dashboards:** Increased operational visibility across 3 departments, measured by weekly executive reporting adoption, by building Power BI and Excel dashboards tracking 10+ KPIs including fill rates, cycle times, and variance metrics.
- **Process Improvement:** Reduced supply chain review cycle time by 20%, measured by leadership reporting frequency, by mapping workflows with operations teams to isolate bottlenecks and prioritize corrective actions.
- **Business Reporting:** Improved data accessibility for non-technical stakeholders, measured by fewer ad-hoc reporting requests, by translating raw operational data into executive-ready reports and recurring reviews.

Student Mentor | Supply Chain Management Association (SCMA), ASU

Sep 2024 - Dec 2024

- Improved career fair placement rates by 40% among mentees, measured by post-semester outcomes tracking, by delivering 1:1 coaching on resume positioning, LinkedIn strategy, and interviews to 15+ students.

Event Coordinator | Arizona State University, Tempe, AZ

Dec 2022 - Apr 2023

- **Operational Efficiency:** Cut scheduling inefficiencies by 25% across 20+ campus events, measured by post-event operational reviews, by redesigning resource allocation workflows while maintaining 95% attendee satisfaction.

ANALYTICS PROJECTS

StudyBucks Hackathon | EdPlus, Scottsdale, AZ

Aug 2023 - Dec 2023

- **Business Analysis:** Identified 4 high-risk user segments representing 35% of churn, measured by cohort analysis across 10,000+ records, by conducting exploratory data analysis in Python to surface engagement drivers.
- **A/B Testing & Dashboards:** Drove a 30% engagement lift and 20% retention gain, measured by pre/post A/B test results, by designing experiments and building Power BI dashboards tracking KPIs across the full user funnel.

Student Mental Health Dashboard | Independent Project

Apr 2025

- Prioritized 3 program interventions with highest ROI, measured by statistical significance testing on survey data, by building Power BI dashboards with demographic segmentation and Python-based analysis.

Data Analytics Virtual Experience | Deloitte Australia, Forage

Apr 2025

- Flagged 12 data quality anomalies across 1,000+ records, measured by Tableau dashboard delivery to simulated client stakeholders, by querying structured databases in SQL and applying Excel-based statistical analysis.

Corporate Analyst Development Program | JPMorgan Chase & Co., Forage

Jul 2024

- Boosted simulated team productivity by 15%, measured by process efficiency scoring, by building Tableau executive dashboards and performing root cause analysis on 5 internal workflows.

EDUCATION

B.S. Business Data Analytics | W.P. Carey School of Business, Arizona State University

May 2026

GPA: 3.8 | Dean's List (6 semesters) | Relevant: Supply Chain Mgmt, Operations Mgmt, DBMS, Financial Accounting
